RE: Interim Laboratory Certification
Lab ID #41080

Dear Ms. Consuegra:

Enclosed is the interim microbiological certification for your drinking water laboratory. Your certification will be listed as Interim, since an on-site evaluation could not be performed by the Alabama Department of Public Health (ADPH). This certification will remain *Interim* until your next on-site evaluation. ADEM is working with ADPH to schedule your on-site evaluation as soon as possible.

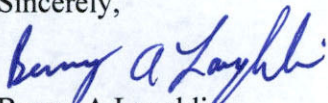

The laboratory is interim certified to analyze drinking water samples for the microbiological analyses methods listed on the certificate and accompanying analyte sheet. Analyses performed by analysts not approved by a primacy agency, or utilizing a method not listed on the certificate, will not be accepted for compliance.

The certification expiration date is **February 28, 2027**. Application for renewal should be made at least thirty days prior to the expiration date with the submittal of a completed application and the appropriate fee.

All results are to be reported to the Department by either XML or direct entry. The Department must be notified by telephone immediately upon the occurrence of any positive bacteriological sample. Analytical results must be received by the Department no later than 10 days after the end of the compliance month. The Lab ID# is **41080** and must be included on all reports submitted to this office for compliance.

If there are any questions regarding this matter, contact me at (334) 271-7775 or bal@adem.alabama.gov.

Sincerely,

Benny A Laughlin

RE: Laboratory Certification Renewal
Lab ID #41080

Dear Ms. Consuegra:

Enclosed is the new chemical certification for your drinking water laboratory.

The laboratory is certified to analyze drinking water samples for the chemicals and microbiological analysis method(s) listed on the certificate and accompanying scope of analysis. Analyses performed by analysts not approved by a primacy agency, or utilizing a method not listed on the certificate, will not be accepted for compliance.

The certification expiration date is **February 28, 2027**. Application for renewal should be made at least thirty days prior to the expiration date with the submittal of a completed application and the appropriate fee.

All results are to be reported to the Department by either XML or direct entry using the department's eDWRs application. Analytical results must be received by the Department no later than 10 days after the end of the compliance month. The Lab ID# is **41080** and must be included on all reports submitted to this office for compliance.

If there are any questions regarding this matter, contact me at (334) 271-7775 or bal@adem.alabama.gov.

Sincerely,

A handwritten signature in blue ink that reads "Benny A. Laughlin".
